Never Miss A Beat With The Caretaker4DS

The Caretaker4DS from Caretaker Medical offers best-in-class blood pressure and vitals signs monitoring using only a single finger cuff. Using a patented and FDA cleared algorithm, it measures blood pressure and vitals signs with every beat of the heart. With seamless integration into your established workflow, comprehensive integrated reporting, cloud file sharing integration and the ability to support remote monitoring by practice staff, the Caretaker4DS will enhance the level of care and oversight you can provide for your patients.
